Other statuses	~21	~1.2%

~783 tasks (45%) are in a completed/shipped/released/done state — strong delivery rate over the period.

Platform & Module Coverage

PLATFORM / MODULE	TASKS	KEY LISTS
🤖 Android	184	Android App, Android Player, Android Improvements, Ops Android App
💻 WebOS / LG	29	LG & Samsung bug, Functional & Integration Enhancements
📱 Samsung / Tizen	10	LG & Samsung bug, Compatibility
🍓 Raspberry Pi / On-Premise	11	On-premise, Product Enhancements
🏠 On Premise (CMS)	7	On Primse bug
🕌 Prayer Schedule	38	Prayer Schedule (2026 Sprints)
🔒 RBAC / Group-in-Group / Folder System	422	RBAC / Group in Group, Rbac Merge bug
⚙ Widgets / Auto Login	74	Auto Login Widgets, Media Sets, Sequences
🌐 CMS / General	667	POCS Sample, CMS Live, CMS Improvements, Bugs (all months)
📦 Other	281	Feature Plans, Research, Dashboard, etc.

🤖 Android (184 tasks)

Lists: [Player Apps / Android App](#) · [QA Bugs List / Android Player](#) · [2026 Support Team / Android Improvements](#) · [ERP-Squad / Ops Android App](#)

📌 Key Highlights

- **Ops Android App** (Aug 2025): Full on-boarding workflow — screen profiles, outlet management, QR code SIM scan, installation flows (44 tasks)
- **Android Player bugs** (Dec 2025–Jul 2026): Boot delay, cache clearing, PDF issues, HDMI layout bugs, rotation, GeckoView engine

- **Android Improvements** (Apr–Jun 2026): Navigation bar, screen rotation, dot indicator, clear cache, custom file downloader, live data sync
- **July 2026 batch** (ready for deployment): 36 fixes in one release — PDF ANR, black screen heal, RTMP crashes, GeckoView failures, web auto-login, VLC engine

 Status Split

STATUS	COUNT
ready for deployment	36
backlog	48
shipped	23
in development	13
testing	12
scoping	7
other	45

 Notable Tasks

TASK	STATUS	LINK
Fix PDF ANR (900+ pages)	ready for deployment	↗
Fix GeckoView init failure	ready for deployment	↗
Fix web auto-login skipped on some sites	ready for deployment	↗
VLC LIVE engine	ready for deployment	↗
Black Screen Auto-Heal	ready for deployment	↗
Layout Flip Positions Mismatch in Multi-layout	in review (Urgent)	↗
HDMI Triggered Layout & Change Playlist	in review	↗
Dynamic Custom File Downloader with Remote Screen Config	ready for deployment	↗
Schedule Brightness not working on APK 115	testing	↗
QA Test Execution — v3.11.7	backlog	↗

 WebOS / LG (29 tasks)

Lists: [LG & Samsung bug](#) · [Functional and Integration Enhancements](#) · [Bugs - Feb \(2026\)](#)

 Key Highlights

- LG & Samsung consumer TV + hospitality compatibility testing
- YouTube widget volume, screen rotation, storage information bugs
- Online/offline status mismatch (WebOS shows green incorrectly)
- PDF playback support on LG and Tizen platforms

Notable Tasks

TASK	STATUS	LINK
WebOS server connection status incorrectly shows green	backlog (High)	↗
LG TV – YouTube Widget Volume Issue	backlog	↗
LG TV – Screen Rotation Issue	backlog	↗
Support PDF playback on LG and Tizen	backlog	↗
Online/Offline Status Sync (Tizen & LG)	backlog (Normal)	↗
Hospitality TV Development on Samsung + LG	waiting for resource	↗

Samsung / Tizen (10 tasks)

Lists: [LG & Samsung bug](#) · [Compatibility / Imported from Spreadsheet](#)

Notable Tasks

TASK	STATUS	LINK
Screen deactivation not reflected on Samsung Tizen	backlog	↗
Screen Deactivation on Samsung Tizen Devices	backlog (Normal)	↗
Samsung & LG New Model Support	backlog (Normal)	↗
Fix bad storage readings (Total = 0 / N/A)	scoping (Normal)	↗
Samsung v6/v7 compatibility (×6)	Open/Closed	[various]

Raspberry Pi / On-Premise (11 tasks)

Lists: [On-premise / List](#) · [Product Enhancements & Stability Improvement Report](#) · [Feature Plans](#)

Notable Tasks

TASK	STATUS	LINK
Folder functionality missing under Playlists	shipped	↗
Playlist not published after adding sequences to a zone	backlog	↗
Cloud-only features visible in on-prem environments	backlog	↗
Amazon SignageStick + Raspberry Pi Development	yet to start	↗
On-Prem Demo Environment	backlog (Normal)	↗
On-Prem Player Build Update	backlog (Normal)	↗

On Premise — CMS (7 tasks)

List: [2026 Support Team / On Primse bug](#)

All 7 tasks raised **Jul 2026**, currently **backlog**:

TASK	LINK
Dashboard storage accuracy issues	↗
Remove license expiry dates for perpetual licenses	↗
MDM should be removed from Admin page	↗
"Change Email" and "2FA" features non-functional	↗
Public network uploads prevent file access	↗
Troubleshooting settings don't match standard CMS options	↗
General instability: custom file downloader, hardware changes	↗

Prayer Schedule (38 tasks)

List: [2026 Sprints / Prayer Schedule](#) (Jul 2026 major sprint)

Status Split

STATUS	COUNT
shipped	22
backlog	5
scoping	3
done	1
cancelled	1
development	2

Key Bugs Fixed (shipped)

TASK	PRIORITY	LINK
Duplicate Prayer Plan Can Be Created	—	↗
Mandatory Fields Don't Display Red Asterisk	—	↗
Unused Duration Field Displayed in Player	—	↗
Prayer Schedule allows Active plans without location	High	↗
Calendar sends multiple API requests on refresh	—	↗
Today page doesn't show friendly error	Normal	↗
Toggle alignment in plan	High	↗
Show current date in config	High	↗

TASK	PRIORITY	LINK
Advanced location configs fetched from Geo API	High	↗

 Open / Pending

TASK	PRIORITY	LINK
Create plan through Calendar	Urgent	↗
Show screens (similar location) in Publish Page	High	↗
Connecting lon/lat of screens and prayer schedules	High	↗
Media Set in Prayer Schedules (v2)	Normal	↗
Concept of Prayer Templates	Low	↗

 **CRUD Test Report** (2026-07-23): 16/16 automated checks green. 5 UI/UX issues found (PS-UI-01 to PS-UI-05) — all filed in ClickUp today.

 RBAC / Group-in-Group / Folder System (422 tasks)

Lists: [2026 Sprints / RBAC / Group in Group](#) (214) · [2026 Sprints / Rbac Merge bug](#) (54) · + related lists

This is the **single largest module** in the workspace — 422 tasks (24.5% of total).

 Status Split (estimated from list counts)

LIST	TASKS	PRIMARY STATUS
RBAC / Group in Group	214	Mixed (shipped/backlog/scoping)
Rbac Merge bug	54	backlog/in development
QA Bugs / UI-UX improvements	31	backlog/shipped
QA Bugs / Functional Enhancements	13	backlog
QA Bugs / Windows CMS	16	shipped/backlog
Others (matched keyword)	94	various

 Coverage Areas

- **Role-Based Access Control:** Role creation, permission assignment, role editing/deletion
- **Group-in-Group:** Nested group hierarchy, folder organization, drag & drop
- **Folder System:** Playlist folders, media folders, screen group folders
- **Merge & Conflict bugs:** RBAC merge conflicts, permission inheritance bugs
- **UI/UX Improvements:** Role management interface, permission matrix display

 Widgets / Auto Login (74 tasks)

Lists: [Auto Login Widgets](#) · [Media Sets](#) · [Sequences](#) · [Webhook & Trigger](#)

 Breakdown by List

LIST	TASKS
Media Sets	30
Sequences	5
Auto Login Widgets	4
Webhook & Trigger	1
Matched from other lists	34

 Key Areas

- **Auto Login Widget:** WebPage URL validation gap, form state reset bug, one-login/per-screen toggle
- **Media Sets:** CRUD, search, aspect ratio filter, bulk selection
- **Sequences:** Display conditions, scheduling bugs
- **Webhooks:** Trigger event integration

 Notable Auto Login Bugs (from test report 2026-07-17)

- No URL field validation (silent failures)
- Form state resets unexpectedly after save
- Widget name required check works 
- All URL-related validations fail 

 CMS / General (667 tasks)

Primary Lists: [QA Bugs / POCs Sample](#) (184) · [QA Bugs / CMS Live](#) (103) · [2026 Support Team / CMS Improvements](#) (58) · [Bugs - June 2026](#) (45) · [Bugs - April 2026](#) (32) · [Bugs - Oct 2025](#) (19) · [Bugs - Feb 2026](#) (18)

 Bug Logs by Month

PERIOD	LIST	TASKS
Oct 2025	Bugs - October (2025)	19
Feb 2026	Bugs - Feb (2026)	18
Apr 2026	Bugs - April (2026)	32
Jun 2026	Bugs - June (2026)	45
Ongoing	CMS Improvements	58
Live environment	CMS Live	103
POC Sample	POCS Sample	184

 Key CMS Areas Covered

- Media library, media sets, playlists, screens, library widgets
- Rollout system (21 tasks), reports (20 tasks), direct file publish (19 tasks)
- Screen session reports (11 tasks)
- Dashboard common bugs, feature plans, research

- Compatibility matrix (103 tasks — Imported from Spreadsheet)

Timeline View

Top Delivery Highlights (Shipped/Released)

1. **Android Player July 2026 Release** — 36 fixes ready for deployment (PDF, RTMP, GeckoView, black screen, auto-login)
2. **Prayer Schedule Sprint** (Jul 2026) — 22 bugs shipped in ~3 weeks
3. **Android App Features** (Jan 2026) — Logic TV brightness, OTA install, screenshot, power on/off schedule
4. **On-premise fixes** — Folder functionality in Playlists, create on-prem user access
5. **Media Sets CRUD** — Full create/read/update/delete with search & aspect ratio filter
6. **CMS Live bugs** (Dec 2025) — Boot delay, cache, YouTube autoplay, online/offline sync

Open / Pending Items (High Priority)

AREA	TASK	PRIORITY
Android	Layout Change Switch Smoothness / Flip Overs	Urgent
Android	Web View older content showing in background	High
Android	Send LAT/LONG in additional info events	—
Android	HDMI Triggered Layout + Change Playlist	—
Prayer Schedule	Create plan through Calendar	Urgent
Prayer Schedule	Connecting screens lon/lat to prayer schedules	High
Prayer Schedule	Show screens (same location) in Publish Page	High

AREA	TASK	PRIORITY
WebOS/LG	WebOS connection status shows green incorrectly	High
On Premise	All 7 On-Prem CMS bugs (filed Jul 2026)	—
RBAC	54 Rbac Merge bugs pending	—

Summary Stats
